tens of thousands of

van operators

each month.

vanlocator^{online}
www.vanlocator.co.uk

Targeting van operators is a tricky task. Van users come from many different industries - they don't all read the same trade magazine. They do have one thing in common, however.

They have to buy their vans.

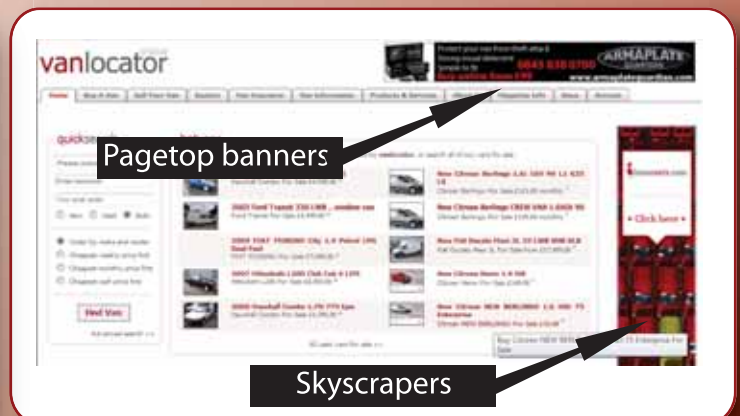

At vanlocator.co.uk we have tens of thousands of van operators every month browsing the site for vans for sale.

- ✓ Top Google Ranking
- ✓ Online since 2000
- ✓ Variety of ad formats
- ✓ Your own statistics online
- ✓ CPC/CPM/Tenancy Rates

Whether you are selling van insurance or products and services suitable for the van operator, we can help to get your message across.

Our in-house design and dedicated account management teams will help you if you are new to online advertising and if you know your CPCs from your CPMs, then we can talk your language.

Advert sizes are available to suit your budget, from a button ad to a full sized MPU. Pagetop banners appear throughout the site, whilst specialist pages, such as the insurance channel allow you to target more precisely.
